

- DefenseWave™ may protect against hearing loss due to noise exposure.
- Glutathione acts as the master antioxidant of the body and it recycles and maintains functional levels of vitamin C and vitamin E.
- DefenseWave™ supports collagen synthesis and wound healing.
- Glutathione supports the immune system and helps the body fight off viruses and other types of infections such as malaria.
- DefenseWave™ replenishes the body's glutathione which will remove toxins such as heavy metals and toxic chemicals.
- Glutathione is needed for cell repair, protein synthesis and DNA replication.
- DefenseWave™ helps protect the cells from exposure to radioactive substances.

Military sent to battle zones are over 50 times more likely to suffer noise-induced hearing loss (NIHL). As disability payments for hearing loss skyrocket to almost 80,000, the military is becoming much more aware of the dangers of loud noises and their impact on people's hearing. DefenseWave™ may help protect against NIHL.

DefenseWave™ is a new way to dramatically increase Glutathione levels in the body on a daily basis.

Our clinical studies show that the AVERAGE increase in blood Glutathione levels over a 24-hour period is a remarkable 3 TIMES HIGHER than the baseline.

Our patch technology makes elevating Glutathione levels convenient, effective and safe.

We certify that the DefenseWave™ patches have been manufactured at FDA registered facilities in the U.S.A. and in accordance with the specifications in the patent filing. LifeWave NC™ does not endorse claims or have scientific proof that its products are effective in the cure, mitigation, treatment or prevention of disease in man or animal.
